Projects:

1. **Drowsiness Detection System:**
   An Android application was created that makes use of image processing technology and analyses every image taken with the user's phone camera. The degree to which the driver's eyes are open or closed determines if a drop in awareness has occurred.
   - **Technology Stack:** Python, OpenCV, Tensorflow, Keras, Pygame.
2. **Child Blood Type Calculator:**
   This tool offers a straightforward and educational way for users to explore genetic inheritance patterns related to blood types, making complex genetic concepts accessible and easy to understand. Whether you're a student, parent, or simply curious about genetics, this calculator provides valuable insights in a user-friendly format.
   - **Technology Stack:** HTML, CSS, JavaScript.
3. **Stock Management System:**
   Created Stock Management System is a software system for tracking inventory levels, orders and sales. It is a tool for organizing inventory data that before was generally stored in hard-copy form or in spreadsheets.
   Technology Stack: Python, Django, CSS, HTML, JavaScript, MySQL.
4. **Skin Disease Detection:**
   The proposed system deals with the creation of the application that helps to diagnose the skin disease. This application uses machine learning and image processing technologies to detect the type of the skin disease.
   - **Technology Stack:** Python, OpenCV, NumPy, Pandas, TensorFlow, Keras, ML.

Work Experience / Internships:

- Software Developer Internship | Inventors Tech Pvt. Ltd, India.
- Web Development 8 Weeks Training | Internshala.

Technologies Used:

Python, DSA, OOP, HTML, CSS, JavaScript, MySQL, Canva, Git, Microsoft Azure, UI/UX, SAP

Research Papers:

- Data Recovery in Forensic (Published on International Organization of Scientific Research)
- Drowsiness Detection System (Published on Journal of Basic Sciences)

Certifications:

- Microsoft Azure: Cloud Computing from Udemy.
- Ethical Hacking Course from Internshala.
- SAP Training Program from R.Solutions Pvt Ltd.
- MS-CIT from Maharashtra State Board of Technical education in 2016 with 88%.
- TCS-ION Programming, Data Structures & Algorithms.
- Java Script from Udemy.
- Web Development 8 Weeks Training from Internshala.

Education:

1. **B Tech (IT) | Bharati Vidyapeeth Deemed to be University, Pune |** SGPA: 9.12 | 2020-2023
2. **Diploma (IT) | Bharati Vidyapeeth Deemed to be University |** Percentage: 86.38 | 2018-2020
3. **HSC (12th) | Sarvajanik Vidya Mandir Junior College, Pen-Raigad |** Percentage: 57.85 | 2017-2018
4. **SSC (10th) | K.E.S Higher Secondary, Pen-Raigad |** Percentage: 73.80 | 2016
